Journal of the Neurological Sciences, 108 (1992) 235–236
Elsevier Science Publishers B.V.

Contents of Volume 108

Number 1 – March 1992

Research papers

Platelet activity and stroke severity
R. Joseph, E. Han, C. Tsering, S. Grunfeld and K.M.A. Welch (USA) 1

Molecular genetics of Leber's hereditary optic neuropathy: study of a six-generation family from Western Australia
H. Sudoyo, S. Marzuki, F. Mastaglia and W. Carroll (Australia) 7

Familial motor neuron disease with Lewy body-like inclusions in the substantia nigra, the subthalamic nucleus, and the globus pallidus
C. Tranchant, M.-H. Dugay, M. Mohr, P. Wasser and J.-M. Warter (France) 18

Recovery functions of somatosensory evoked potentials in parkinsonian patients
K. Nakashima, T. Nitta and K. Takahashi (Japan) 24

The association of astrocytoma and pituitary adenoma in a patient with alcaptonuria
R. Abs, M. Van Vyve, P.J. Willems, I. Neetens, B. Van der Auwera, E. Van den Ende, E. Van de Kelft, A. Beckers, E. Van Marck and J.-J. Martin (Belgium) 32

1-H-Localized magnetic resonance spectroscopy: preliminary observations in transient ischemic attacks
S. Felber, G. Luef and F. Aichner (Austria) 35

Pathology of the cerebellar dentate and interpositus nuclei in Joseph disease: a morphometric investigation
Y. Fukutani, I. Nakamura, K. Kobayashi, N. Yamaguchi and R. Matsubara (Japan) 39

Electronmicroscopic observation of amyloid deposits in the vascular walls of the choroid plexus in systemic amyloidosis
I. Nakano, A. Hirano and M. Tomonaga (U.S.A., Japan) 48

Hyperthermic injury versus crush injury in the rat sciatic nerve: a comparative functional, histopathological and morphometrical study
J.F. Hoogeveen, D. Troost, J. Wondergem, A.H.W. Van der Kracht and J. Haveman (The Netherlands) 55

Mechanisms of oligodendrocyte interaction with normal human serum – defining the role of complement
J. Zajicek, M.G. Wing, P.J. Lachmann and D.A.S. Compston (U.K.) 65

Reactivity of two anti-galactosyl ceramide antibodies towards myelin basic protein
J. McLaurin and M.A. Moscarello (Canada) 73

Kynurenic acid concentrations are reduced in Huntington's disease cerebral cortex
M.F. Beal, W.R. Matson, E. Storey, P. Milbury, E.A. Ryan, T. Ogawa and E.D. Bird (U.S.A.) 80

Changes of neuropeptides and their receptors in experimental stroke gerbil brains
K. Haba, N. Ogawa, M. Asanuma, H. Hirata, Y.H. Sora and A. Mori (Japan) 88

T-cell phenotypic profiles in the cerebrospinal fluid and peripheral blood of multiple sclerosis patients
R. Scolozzi, A. Boccafogli, M.R. Tola, L. Vicentini, A. Camerani, D. Degani, Enrico, Granieri, L. Caniatti and E. Paolino (Italy) 93

Tumour necrosis factor causes an increase in axonal transport of protein and demyelination in the mouse optic nerve
H.G. Jenkins and H. Ikeda (U.K.) 99

Defects of the mitochondrial respiratory chain complexes in three pediatric cases with hypotonia and cardiac involvement
D. Figarella-Branger, J.F. Pellissier, C. Scheiner, F. Wernert and C. Desnuelle (France) 105

Short Communication

Cholinergic markers in ALS spinal cord
M.L. Berger, M. Veitl, S. Malessa, E. Sluga and O. Hornykiewicz (Austria) 114

Book reviews 118

Number 2 – April 1992

Research articles

On the role of monocytes/macrophages in the pathogenesis of central nervous system lesions in hereditary cystatin C amyloid angiopathy
L. Thorsteinsson, G. Georgsson, B. Ásgeirsson, M. Bjarnadóttir, Í. Ólafsson, Ó. Jensson and G. Gudmundsson (Iceland, Sweden) 121

Chronic infusion of quinolinic acid in rat striatum: effects on discrete neuronal populations
G.L. Forloni, N. Angeretti, M. Rizzi and A. Vezzani (Italy) 129

Extrapyramidal system involvement in motor neuron disease
K. Hasegawa, H. Kowa and S. Yagishita (Japan) 137

Creutzfeldt-Jakob disease presenting as Wernicke-Korsakoff syndrome
V. Pietrini (Italy) 149

Histopathology and fine structure of the brain in six cases of Creutzfeldt-Jakob disease from Western India
D.K. Dastur, D.K. Manghani and B.S. Singhal (India) 154

Neuropathological background of twenty-seven centenarian brains
T. Mizutani and H. Shimada (Japan) 168

Characterization of a transthyretin-related amyloid fibril protein from cerebral amyloid angiopathy in type I familial amyloid polyneuropathy
F. Kametani, S.-i. Ikeda, N. Yanagisawa, T. Ishi and N. Hanyu (Japan) 178

Improvement in motor evoked potentials and clinical course post-steroid therapy in multiple sclerosis
J.Y. Salle, J. Hugon, F. Tabaraud, J.M. Boulesteix, J.M. Vallat, M. Dumas and C.M. Poser (France, U.S.A.) 184

Muscular involvement in lysosomal acid lipase deficiency in rats

Y. Honda, M. Kuriyama, I. Higuchi, J. Fujiyama, H. Yoshida and M. Osame (Japan) 189

Detection and severity of low frequency fatigue in the human adductor pollicis muscle
R. Mellor and M.J. Stokes (Australia) 196

Serum factors responsible for unusual induction of plasminogen activator activity in tuberous sclerosis
K. Sugita, N. Suzuki, E. Isogai and H. Niimi (Japan) 202

Juvenile parkinsonism: ventricular CSF biopterin levels and clinical features
Y. Furukawa, K. Nishi, T. Kondo, Y. Mizuno and H. Narabayashi (Japan) 207

Dystrophin isoforms and/or cross-reactive proteins on neurons and glial cells in control and *mdx* central nervous systems
K. Yoshioka, J. Zhao, M. Uchino and T. Miike (Japan) 214

Effects of anaesthetics, anticonvulsants and glutamate antagonists on kainic acid-induced local and distal neuronal loss
G.J. Lees (New Zealand) 221

Book reviews and books received 229
